

How to make a mini-book

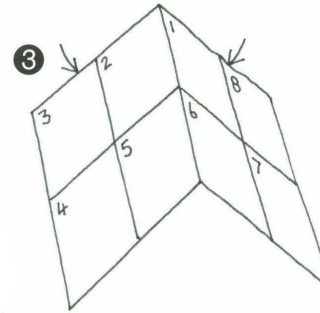

1) Cut out the mini-book along the dotted line.

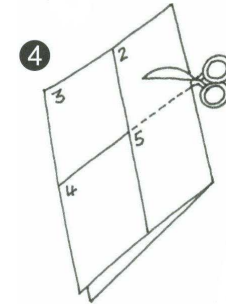

2) Fold it along the longer centre line (with the numbers on the outside).

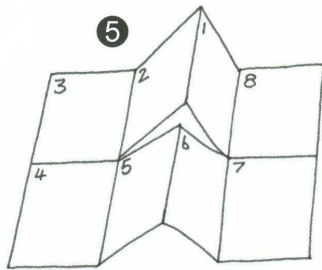

3) Fold it along the shorter centre line.

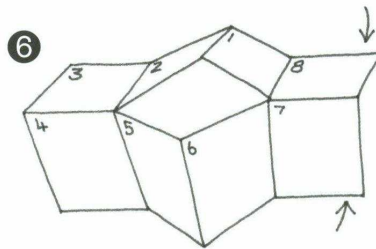

4) Cut along the dotted line in the centre.

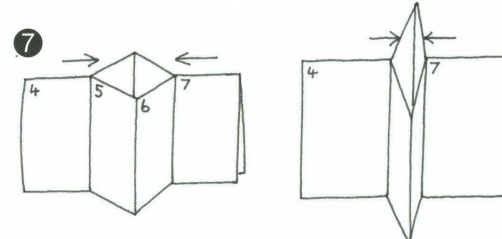

5) Fold along the line perpendicular to the line you've just cut. Then fold along the lines immediately either side.

6) Re-fold along the longer centre line.

7) Press the outer sides of the book together and push the centre section out.

8) Bingo! Your mini-book is ready!
